at Mora Telematika Indonesia

Dian Nur Fadhliah
Accounting - 2014th
Finance Staff at
PT. Conch Cement Indonesia Co Ltd

"Taking Double Degree Program is the best choice I've been made for my life so far, why? because I can have a lot of new experience, study 2 years in Indonesia (Esa Unggul University) and 2 years in China (Nanjing Xiaozhuang University) give me knowledge of two big countries, especially in China where the technology there is advanced, I learnt a lot of new things and culture there, even I learned how technology in China can be so advanced that they can compete with western countries, the key for them to be this far is work ethics, and that is what I applied for my job right now."

"As we know, I received a full scholarship from Esa Unggul Univ to studied accounting. I'm very grateful for that, because it's really help me to realize my dreams. Besides being active in study, I also active in organization because Esa Unggul Univ strongly supports all student activities. I'm not only had the opportunity to study in Jakarta, but also Esa Unggul Univ give me opportunity to follow double degree program to be able to study abroad, in Nanjing Xiaozhuang University, China."

"Taking double degree student was unplanned before. It was a chance at that time, and I was chosen to be one of them that flight to Nanjing, China. China teach and gave me a lot of new things. Simple example is when I can feel 4 seasons. When I back to Indonesia, all the best experiences make me want to be a good person in the future. And one of a lot of good benefits after back from China is I can work at foreign company in Indonesia because I have one plus value that is can speak chinese, even though a little."
